A LABORER MURDERED BY STRIK-

Rumored Indictment of Dudley-Allison and the Cabinet-Anarchist "Martyrs" Glorified.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

A FIEND INCARNATE.

The Terrible Crime Committed by Young Polander. Lansing (Mich.), January 27th.—A hor

rible murder was committed last night in Delphi township, seven miles from this city. Christian Stochal, a Polander, resides on a small farm near here with his in the only room in the cabin.

Minnie retired a short time later to another bed, and her grandmother was disrobing, when a gun was discharged just outside the east window of the cabin. The shot crashed through the glass and struck Mrs. Stochal over the heart. Minnie sprang up in her bed at the sound of the shot, and the gun was discharged a second time, the load striking the child in the

Minnie sprang up a ladder in the corner of the room to the loft above, and her grandmother was attempting to follow her, when a third load of shot struck her and she fell dead.

As Stochal sprang out of bed, dazed with sleep, a fourth charge struck him in the head. Stochal crawled out of bed, and see-from Chicago was made at a time when he ing the murderer standing several rods from the house, slipped off in another direction and, barefooted and clad only in his shirt and drawers, ran to the house of Cornelius Driscoll, half a mile west. THE MURDERER

Is undoubtedly August Tanks, a nineteen year-old Pole. He borrowed a Winchester repeating gun yesterday and was seen afterwards loading a number of cartridges with bird shot. He has been traced to the rail road depot, where he took the east-bound rany. It Has Been in a Safe Place.

Fred Stochal, the son, who has been in Lansing since Friday, has been arrested on suspicion of being implicated in the crime. Minnie Faltz will probably die. Mr. Stochal's injuries are serious, but not fatal.

A STRAIGHT TIP.

Little Doubt of Allison Having Been Invited to the Cabinet. Indianapolis, January 27th.—Senators I eral Harrison's house, where they lunched with him. A prolonged consultation followed, Senator Cullom leaving at 5 o'clock to a shutter. for the hotel, and Senator Allison remaining at the General's. It is understood that they came here on invitation, but about the objects of their visit there are many opinions. The long consultation of Quay and Allison remaining over till to-morrow is evidence that he is to go into the Cabinet, and that the remainder of his stay will be devoted to a discussion as to the other members. There is a feeling here that it is the State, and not the Treasury Department, that he is to occupy. General Har-rison was as reticent as ever when seen this evening, and simply said he had nothing

While there is no doubt the Cabinet question was considered at some length, there is reason to believe that the Samoan matter was the chief topic of consideration

during the afternoon.

Senator Cullom said to a correspondent this evening that the Samoan question was discussed, and while not at liberty to say what General Harrison thought of the matter, he did give his own views. He said:
"I am not in favor of permitting any country to throw brick-bats at us. I am an American all through, and think we are big enough to take care of ourselves under Samoan matter looks serious at present, I believe the coming Administration will reach an adjustment satisfactory to the country. I think a solution will be reached

without difficulty."

He said there would be no yielding on our side, but a settlement would be reached on a dignified basis. He thought we would not be without an adequate navy very long, and in the meantime there would be no yielding of our position for want of a first-class navy. As an intimation of how General Harrison stands on the Samoan question the following from his letter of acceptance is not without interest at this time, and may be regarded as very signifi-cant, in view of what Senator Cullom said: Our relations with foreign Powers should be characterized by friendliness and respect. The right of our people and of our ships to hospitable treatment should be insisted upon with dignify. Our nation is so great, both in material and strength, and in moral power, that to indulge in bluster or be suspected of timorousness, vacillation or insincerity are as incompatible with successful diplomacy as they are with national dignity.

When asked about the Cabinet, Senator Cullom said: "Allison undoubtedly can be in the Cabinet if he wants too, but I am not at liberty to say whether he intends to go in or not. You can readily understand my

To sustain the idea that it is the State and not the Treasury Department that Allison is to have, the fact that the Samoan question is one that would be more directly under the State Department is cited. If any other statesman than Allison was to occupy that department, it is claimed, he would have been called here, and not Alli-

Senator Cullom left this evening for Springfield. Senator Allison remained at General Harrison's to-night, and was inaccessible to the correspondents.

About the Cabinet.

Indianapolis, January 27th.—The Press, under the heading "Cabinet Certainties," says: "General Harrison is said to be looking four years ahead in making up his Cabinet, which will likely be as follows: Blaine for Secretary of State, Allison for the Treasury, Wanamaker for the Navy, Platt for Postmaster-General, and Alger for Secretary of War. Warner Miller will be Secretary of Agriculture when that department is raised to a Cabinet position. Estee of California, General Goff of West Virginia, and Powell Clayton of Arkansas, are Cabinet possibilities."

KILLED FOR WORKING. Diabolical Murder Committed by Strikers

in Brooklyn. BROOKLYN, January 27th.—The street-railroad troubles in this city resulted in a murder to-day. Remarkable Gathering of Anarchists in Chicago Yesterday. CHICAGO, January 27th.—Two thousand men, women and children attended a concert and ball at the Twelfth-street Turner Hall to day, given by the Central Labor Union and Pioneer Aid Society for the benefit of the families of "our eight martyrs—Spies, Fischer, Parsons, Engel, Lingg, Fielden, Schwab and Neebe." Occupying

seats in front of the stage were Mrs. Schwab, Mrs. Fischer, Mrs. Spies and Mrs. Engel. On the stage were photographs of Waldheim Cemetery and the dead Anarchists. Over the front of the gallery were numerous allegorical pictures—Jay Gould, wearing a crown and sitting on bags of gold, holding in one hand trains of cars and in the other a bunch of telegraph lines; the police, with uplifted clubs, around an immigrant ship, the whole surmounted with the statement, "Liberty in the Soup."

A MICHIGAN MATRICIDE. The Son of Mrs. Latimer Arrested for

His Mother's Murder. JACKSON (Mich.), January 27th.-The most intense excitement prevails here owing to the arrest of R. Irving Latimer, a son of Mrs. Latimer, who was murdered by some person unknown on Friday night, while her son was supposed to be at De-troit. It has been shown that Latimer did not stay at the Griswold House as he stated but shortly after arriving at Detroit took a return train to Jackson, arriving at 1 sides on a small farm near here with his family, consisting of his wife, aged 63 years; his son Fred, aged 20, and Minnie Faltz, 13 years old, his granddaughter. RAILROAD MATTERS. The Interstate Commission's Views or

Passenger Tariffs, Etc. WASHINGTON, January 27th.—The Inter-state Commerce Commission has promulgated an opinion on the subject of passenger tariffs and rate wars, prepared by Chairman Cooley. The paper narrates the facts attending the war in passenger rates at St. Louis in October, and also the circumstance of the company of cumstance of the passenger rate war which prevailed at Chicago in December, both of which were investigated by the Commission. It is recommended that the Interstate Commerce Act be so amended as:

First, to define what shall be considered as rival and will never have on the Pacific and the computation of the control of excursion and commutation tickets. Second, to prohibit all payment of com-missions on the sale of tickets, and all sale of tickets for interstate business except by regular agents or carriers. > SOUTHERN CALIFORNIA FEELING. [S. F. Alta, January 27th]

A Los Angeles paper, commenting on the California exhibit sent East on wheels by the State Board of Trade, says: the State Board of Trade, says:

The efforts of the Southern California Board of Trade to effset the so-called State Board of Trade of the northern and central counties of California is a movement which ought to enlist the active co-operation of every well-wisher of this section. The State Board is really hostile to Southern California. It will not have a good word for any county south of Fresno: and, more than that, it is the insidious and indefatigable enemy of Los Angeles county in particular. Heretofore, outside of the newspapers, this region has had no solid, determined advocates. The sooner we realize that we have to fight our own battles the better. Of late the State Board has held out a friendly hand, and the real design has been to lull us into a feeling of security thoroughly false and delusive. "California on wheels" is not designed to do any good to our people. We must put a Southern California on wheels and show our products to the Fasterners. The northern and central counties really did nothing to create the great interest which exists east of the Rocky mountains in this State, but they are not above trying to filch from us the benefits of our labors. By all means let us have a Board of Trade of Southern California.

We regret the existence of such a feel-

We regret the existence of such a feeling and must question the necessity for it.
The State Board of Trade is a costly institution. It has wasted not a dollar of its gural of President-elect Harrison. means, but with rare address and skill of management has produced 100 cents' worth of benefit for every dollar given it to use. We thought that every one knew that its support comes from donations given in this city and affiliated county Boards. Its exhibit on Market street is from the counties which so affiliate and aid in paying its expense. They show not only their products in its splendid museum, but literature concerning their resources is distributed from its office. Every county in the State from Siskiyou to San Diego, can participate in

Siskiyou to San Diego, can participate in its work and its benefits. None are barred out. There is an absoute equality of those who do not affiliate certainly have no right to complain because they do not share the benefits of an effort paid for by others. It is not becoming in Los Angeles, especially, to make such complaint. That of Lake or Napa or Sonoma or Contra Costa. San Francisco, the commercial center of the State and coast, pays heavily to maintain this Board of Trade, and her state represented. This city wishes to see great centers built up in Los Angeles and San Diego, and in the San Joaquin and Sacramento valleys, for they will be tributer to her.

tary to her. We have never detected here the least neart-burning or jealousy amongst busi-ness men against Southern California. On the other hand, we have heard from them and in the Board of Trade the highest compliments paid to the enterprise and spirit of Southern California. And hearing this and never hearing the opposite line of tatement, we have always been at a loss to know where the papers of Los Angeles get the evidence of the feeling against their section of which they speak so continually

and in such malicious temper. Perhaps it is the result of the desire of politicians to

secure a division of the State, and a dupli-cation of offices and places for the benefit of those who love the honors or live by the emoluments of public position. The policy of discontenting the people of the southern counties may have this explanation. If they can be made to feel that they are out-laws from the sympathies and friendship for separation. But what evidence is there of such a state of things? Two Governors of the State have come from the southern counties. The present Governor and the next in succession to him, the President of he Senate, are Southern Californians. Both the great parties have held their State Conventions in Los Angeles. A Justice of the Supreme Court is a San Diegan. Regents of the University, members of the Forestry, Yosemite, Viticultural and Horticult ural Commissions and Trustees of the Nor-mal Schools, Board of Health, Bank Comnissioners, State Board of Equalization and the State Printer and Surveyor-General, have within the last six years been taken from south of the Tehachepi Pass. The fact is, Northern California, that part of the State north of a line drawn east and west through Sacramento, has far more right to complain of being neglected by the two great parties and ignored by the business and political energies which generate in San Francisco than Southern California has. The proper policy for the south is to generate a feeling of State pride among the thousands of new settlers attracted fro the East. Don't inoculate them with a Francisco attracts because it is a great city, with a city's vices and virtues, its high life by a great city, is here, and this city has no rival and will never have on the Pacific coast of the three Americas. Los Angeles and all Southern California should have exhibits in the rooms of the State Board of Trade, and should affiliate with that cody. The people who are being made to feel like orphans in this great family of counties, will be surprised at the warmth of their welcome and the geniality

of the company. GERMAN INTRIGUE.

Legitime, the Haytian Pretender, Rapidily Losing Ground. New York, January 27th —The steam-ship Wensleydale, Captain Goull, arrived here yesterday from Portaux Paix, a north-

sengers and a budget of news. Her crew join in saying that everything looks promising for Hippolyte, and tell some amusing stories about the Haytian soldiery. They are, the saiors say, a ragged lot, armed in the main with old-fashioned guns and horse-pistols, and are half-starved. Four hundred of bem left Cape Haytian recently to join Hippolyte at St. Marie. The distance is only about 100 miles, yet only thirty arrived, the balance

BAN FRANCISCO AGENCIES.

THE STATE BOARD OF TRADE AND

THE SOUTH. If there is any seriousness in the alleged scheme to establish in the south part of the State a Board in opposition to the State Board of Trade, it represents folly and disloyalty to State prosperity. The idea that the State Board is local in any sense is simply absurd. Whoever has given any particular attention to the work of that body has been convinced that it is an organization having the whole State for its field of operations, and that it is not devoted more to the advancement of one section than that of another. It is, in our opinion, the most beneficent business effort that has been inaugurated in the State. Very naturally its proceedings will most reflect the sentiment of its individual constituent parts. But its arms are open to all counties; there are none in the State that have not been besought to affiliate with it. If any of the south have failed to do so, it is their own fault and can be instantly remedied. It is poor encouragement to the broad-minded and publicspirited business men who have for many months given their time and their best energies freely in forwarding the labors of the Board, to find, at this late day, the charge laid at their doors that they are localized in their schemes and circumscribed in their ideas concerning State progression and development.

We are, however, impressed with belief that the rumored opposition is not reprethe southern sections. It emanates, probably, from a few of the narrow-minded, whose conception of Statehood is bounded by the horizon of their own locality These men can never be made to understand that California must be a unit in efforts to develop; that her interests are indivisible, and that all attempts to create internal contention are direct assaults upon the whole State and every industry in it.

The RECORD-UNION makes no apology for referring in this connection to its own course in aiding in the development of the resources of the State, and its advancement generally. Its aim has been to cultivate the bosses would control them. the sentiment of oneness and unity among Californians. It has, it is true, interposed to defend sections against unjust assault, but with equal promptness it has rebuked all attempts to make capital for one section at the expense of any other. In the rapid development and populating of the southern counties it saw, not the prosperity of a section so much as the conservation of the interests of the whole State. In the feverishness of boom excitement and the abnormal rise of values it gave warning of injury not to one locality so much, as to the whole State, and the outcome has justified it. In short, it is for the State of California, every legitimate interest and the remotest as well as the nearest.

It is because of this sentiment of lovalty to the whole State and its hostility to local efforts to rise upon the necks of others that this journal has warmly commended the manly and broad spirit of which the State Board of Trade was born, and from which it draws vitality. It is because it cannot tolerate sectionalism and believes in the one State of California and the whole of it, and not because of its own locality that the RECORD-UNION lately denounced the folly of attempted division of the commonwealth, and more recently advocated such distribution of State institutions as will give new ones to counties not now having any, and that in such locating the economy and justice of placing certain of them in the southern part of the State should be kept in view. The RECORDcourse has but reflected the sober and material sentiment of the people of Central and Northern California; and it has had but one regret, that there should be in the south any Californians whatever so localized andshort-sighted as to look upon their fellow citizens more northerly located as hostile to them or their favored

THE SAMOAN SITUATION.

Congressman Morrow is right in his declaration that the duty of the United States is to demand the restoration of the statu quo in Samoa. The Germans forcibly dethroned Malietos and deported him, recognizing in his stead a rebel, and one who cannot by any contortion of Samoan law or custom establish a claim to the throne. The Germans have put themselves in readiness to yield to an imperative demand, at the last, for they have brought Malietoa back from Zanzibar to the Marshall Islands, but a short distance from Samoa, where he is detained a pris-

The suggestion finds support in the fact that in 1886, when Germany first had difficulty with the Samoans, and the American Consul tendered protection to Malietoa, there came from England an order to her Consul-General at Apia, "De nothing to oppose Germany." But for all the blustering by Germany that country and America are not likely to engage in war to amicable settlement rather than imperil her commerce by exposing it to the risks of a war upon the high seas in which we

Paris was enlivened last evening by frequent street brawls between the supporters and opponents of General Boulanger. The most violent encounter took place in Mont Martre, where a number of persons were wounded. The police interfered and arrested several of the ringleaders.

Another serious collision occurred in the Paris, January 27th.-Every quarter of

Faubourg du Temple, where several persons were injured. At several electoral meet ings there were scenes of great disorder. Bands of men and lads singing the " Marseillaise" and Boulangist songs paraded the streets until a late hour.

In the Place de la Replique and de L'Opera open-air meetings were held. Great masses over the Samoans, for the former will yield of people were present, but the proceedings were on the whole fairly orderly. To-day opened fine, and at an early hour the streets began to fill with people. At noon the electors were thronging towards the 266 balloting stations. LOST HIS BILLY. "A Policeman's Lot Is Not a Happy

One." The colored boot-black of a down-town barber-shop was somewhat sur tised yesterday morning to find lying upon his stand an officer's "billy." Acting under that ancient and time-worn adage that "honesty is the best policy," he proceeded at once to find the party to whom the club belonged. Inquiring in a saloon close by, he was informed that the special officer whose beat was in the southern part of the city, was imbibing the fiery beverage, which instilled in his mind a wild disposition to paint the town red. He was just departing on his arduous undertaking when he imagined he saw his satanic majesty advancing toward him in a very com-promising attitude; suddenly the air became blue from the verbal pyrotechnics which fell from the irate officer's lips, and drawing his "billy" from his pocket, he let drive a fearful blow at the imaginary devil, which, striking the boot-black stand like the roar of a cannon, the noise echoed through the stillness of the night, arousing the slumbering residents from their delightful reveries in the land of dreams. Leaving his club to the mercy of his sup-posed foe, he darted down K street with all the speed he could muster, and where he has gone is a conundrum that the colored boot-tblack would like to have solved. When the officer recovers from his fright,

Seriously Injured. Morris Levy, a merchant of Arbuckle and brother-in-law of D. Harris, of this city, was crossing the railroad three miles

below that place on Thursday. His horse took fright at a passing train and ran against a post. The wagon was demolished, Mr. Levy was thrown out, sustained a compound fracture of one of his legs, and was seriously bruised about the head and shoulders. The train was stopped, the injured man taken aboard and conveyed back to Arbuckle, where his leg was set and his other injuries attended to. He was brought the same afternoon to this city, and is resting comfortably at the res dence of his brother-in-law.

An enjoyable surprise-party was tendered Professor F. M. Jones last Saturday evening by his friends, the occasion being the anniversary of his connection with the Sacramento Business College as a teacher. Music, games and speeches were indulged in, and a general good time was enjoyed by all present. Toward the close of the evening R. G. Hart, Jr., on behalf of the students of the college, presented Prefessor Jones with a handsome gold-headed cane

The recipient was taken by surprise, but responded fittingly. The assemblage dispersed at a late hour, with congratulations and a general interchange of good wishes

A Little Too Previous. Some ladies who persist in wearing their hair done up in pugs, straight out from the back of the head, caused considerable merstyle, had to set up the wine for the entire party. It happened in this wise: His wife at that moment passed with a pug sticking out behind about six inches, to which were attached diminutive corkscrew curls. While drinking he remarked: "Boys, I didn't mean a word I said, but I must confess that

THE LONDON EXHIBIT.

What Ex-Senator A. P. Hall Has to Say About It. In an interview with a RECORD-UNION reporter yesterday ex-Senator A. P. Hall of

The question of a London exhibit is one of very great importance to California. The reasons for it are so obvious that it seems strange there should be many who oppose it. The Convention of 110 which met in San Francisco a month or more ago was a body of representative men from all parts of the State. I believe they fairly represented the sentiment of a majority of the intelligent people of this State.

They were unanimous in the opinion that an exhibition should be held. They believed a large appropriation by the Legislature for the display of the products of the State would come back again to the people four-fold in a very few years. I believe they reason correctly. What an era of prosperity would sweep over this State if all that could be produced

here would find a ready market at fair what thousands upon thousands of new homes would be built up all over the State. What thousand upon thousand acres would be cultivated that are now but barren or bushy waste. Had we but one assured market for all our products our population would be multiplied by three in less than ten years and we would be the most prosperous State in the Union.

I do not claim that London would be a I do not claim that London would be

market for all this, but for a very great deal of it. And the fact that so much of

our products was being shipped to London would be a powerful advertisement for our wares in all the States east of the Rockies. England and the East will give us a market for all we can produce, and that will bring us an era of such prosperity as we never had in California before. splendid display—such as is proposed—and such as will be talked of and written about, such as we can show there, and London and all England will know of our wonder ful State and be eager to obtain our products. More can be accomplished in the two years of the exhibition in London than of twenty-five years of advertising in any other way. And better than all, when the work has once been done it will last for all time, increasing year by year. It is worse than useless to make an indifferent display; it will attract no attention from the class we wish to attract and our money will be wasted. Southern California in the last ten years has spent half a million dollars in advertising that section alone, and it has

able property.

Advertising in any form, to be most effectual, must be with judgment, but a liberal hand. One thing is certain, we must find a wider market for our products or cut short

Sunol and Ansel Still at Palo Alto-Reported Recent Sales. Some time ago the report was published that Robert Bonner was negotiating for the purchase of Sunol, Palo Alto's sensational two-year-old, and that Senator Stanford had put \$50,000 as the price upon her. The Eastern turf papers are very busy just now denying the report, but it is true. Negotiations were made, but Mr. Bonner will hardly make the purchase. Still Sunol can be had by any man who wants to pay the amount named for her.

HE TOOK THE WRONG MEDICINE. Robert Stewart, of Petaluma, recently had a queer experience. He writes

"Carbuneles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surprise it made matters worse. This made me lose faith in sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out as the potash sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same benefit. ROBERT STEWART.

"Petaluma, Cal." [Explanatory Note-The mineral iodide of potash, which is the basis of nearly all other sarsaparillas, attacks the blood direct, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sar-saparilla acts oppositely. Its vegetable alter-atives stimulate the various secretive organs and thus eliminate all impurities through the natural channels, hence dries up pimples and skin eruptions at once. The above testimon-ial is a case in point.]

AN IMPORTANT BRANCH.

If there is any one fact which we would like to emphasize more than all others, it is the importance—the very great importance—of the clothing branch of our business.

Clothing is something that people have to buy every year. What every one wants is to get durable clothing, stylish clothing, clothing that fits, and, above all, clothing that is right in price. How few do!

In that very fact lies our chance. We can and do sell just such clothing as people want, and at as low and lower prices than they can get elsewhere.

Any alterations necessary to a perfect fit will be made by a first-class tailor free of charge.

More than half of th'e members of the Legislature disappeared from the city immediately after the adjournme at on Friday, most of them going on jonketi'ng trips which were being made by different committees to the various public institutions in the State. It is unnecessary to say that ell of these had enjoys ble times, as the managers of such institutions are always very liberal in their entertainment of legislative guests when they have bills pending which call for their support. Of those who remained in the city, some put in hard work in trying to ar-

and there was some committee work done.

So far, this session, bills that create any degree of excitement have been very rare. In the Senate, up to this time, the only bills which have created even a ripple on the surface have been connected with the Bureau of Labor Statistics, and in those cases the majority has been so strong that the opposition resulted in nothing more than a protest. The labor erganizations are making themselves felt in almost every measure and scarcely any bill of-general importance comes up but that some member announces that it is favored or opposed by the Federated Trades. The cracking of this whip is all that is necessary to decide how a large number of votes will go.

COMING CONTESTS.

More than half of the members of the legislature disappeared from the city immediately after the adjournment on Friday, most of them going on janketi ag trips which were being made by different committees to the various

made by different committees to the various public institutions in the State. It is unnecessary to say that (A) of these had enjoys ble times, as the managery of such institutions are always very liberal in their entertainment of legislative guests when they have bills pending which call for their support. Of those who remained in the city, some put in hard work in trying to arrive at the merits of various pending measures, and there was some committee work done.

So far, this session, bills that create any degree of excitement have been very rare. In the Senate, up to this time, the only bills which have created even a ripple on the surface have been connected with the Bureau of Labor Statistics, and in those cases the majority has been so strong that the opposition resulted in nothing more than a protest. The labor erganizations are making themselves felt in almost every measure and scarcely any bill of general importance comes up but that some member announces that it is favored or opposed by the so strong that the opposition resulted in nothing more than a protest. The labor erganizations are making themselves felt in almost every measure and scarcely any bill of-general importance comes up but that some member announces that it is favored or opposed by the Federated Trades. The cracking of this whip is all that is necessary to decide how a large number of votes will go.

The main reasons advanced are that they are compelled to travel too far to the county seat; that their snare of the expenses of the county government is exorbitant, and that a division of the county would result in the cutting up of large tracts of land, enhance the value of property and stimulate improvements, so that it would result in great benefit to the State in general as well as to the territory affected. The citizens of Colusa county have been granted the use of the Assembly chamber for to-morrow evening, when it is understood the arguments for and against the proposed division will be set forth in full.

ORANGE COUNTY. and the organization of the county of Orange out of its southern portion, is being worked very nie ly but effectively. W. H. Spurgeon and Hy. CHICO NORMAL SCHOOL.

The Senate and Assembly Committees on Ideacation and Public Buildings, accompanied by Secretary of State Hendricks and Ira-G. doitt, State Superistendent of Public Instructions, visited the Northern Branch State Normal school at Chico on Saturday. The party, numbering thirty-five, arrived on Friday evening and were entertained in royal style by the dissens of the place. A banquet was tendered them by F. C. Lusk. On Saturday the party issted the Normal School and the State Forestry station located three miles from Chico. An appropriation of \$35 000 is asked for the Normal School. CHICO NORMAL SCHOOL

gan has introduced in the Assembly a bill establish a uniform State, county, city and cunty, ormunicipal liquor license tax for the reli sale of liquors in less quantities than five galling. It provides that every dealer so selling shall by \$21 quarterly in advance, all such license oney to be paid into the general fund of the punty, or, where consolidated, the city and county gashry, and be apportioned to such respective welve property holders within the locality of the county or city and county in which the citiense is applied for. The license may be revoked upon complaint, in writing, of any property-holder of the locality, that the liquor seller conducts his business in a disorderly or improper manner. Upon such semplaint the offender shall be proceeded against as in a criminal case for a misdem canor. The penalty for selling without the spec tied license is fixed at not less than 350 nor nove than \$500, or by imprisonment in the count visil not exceeding six months or by both fine at M imprisonment.

Assembly Bill No. 313, in troduced by Mr. Ostrom, amenda ory of the Act; to fogue agricultural districts, to provide for the organization of agricultural associations there is, for the management and control of the same by the State, adds two new sections, as follows:

Section 17a. Mr. Damfon has introduced in the Assembly a bill to punish the offense of advertising for divorce. The Act is designed to go into effect on July 1st of the present year, and provides that whoever advertises, prints, publishes, distributes, or circulates, or causes to be advertised, printed, published, distributed, or circulated, any circular, pamphlet, card, handbill, advertisement, printed paper, book, newspaper, or notice of any kind, with intent of procuring or to aid in procuring any divorce, either in this State or elsewhere, shall be fined not less than one hundred dollars, nor more than one thousand dollars for each offense. The Act shall not apply to the printing or publishing any notice or advertisement required or authorized by any law of this State.

PROTECTING REGISTRATION OF THOROUGHBREDS Assembly Bill No. 234, by Mr. Fassett, makes it a misdemeanor for any person to obtain by false pretense a certificate of registration of any animal in an authorized herd register, or to give a false pedigree of any animal with intent to mislead.

One of the most important bills before the Senate is that providing for the building of a vault in the basement of the Capitol for the State archives. At present they are scattered all over the building in such a manner that it would take a long time to unearth a document filed ten years ago. There is no place to keep them and they are not safe in their present shape.

Ore in Alabama. Bismingham (Ala.), January 25th.—Some workmen tunneling Red Mountain, two miles from this city, struck a cave several days ago. This was soon passed, leaving small openings on each side of the tunnel. One day last week an immense amount of dirt and rock from above caved in, completely filling the tunnel for a dis-

tance of fifty feet.
When this had, been cleared away the workmen found themselves in the center of a large rock-walled room. The cave on he left of the tunnel remained unchang but the opening on the right had extended officen feet high. Some men started to ex-plore the cave. After a www winding pas-sages they came to an immense opening, he descent of which was almost perpendicular.

Huge stones swere rolled to the entrance of the pit and pushed in, but nobody heard them strike. An excineering expert, who has visited several extinet craters and whose knowledge of scology is not limited, says the character of the rock and every-thing about the place indicates that the tunnel has encountered a section of a crater
